- Quick Learner

About Me

Currently pursuing a postgraduate degree in the field of computer applications. It's a fantastic area of study that combines both theoretical knowledge and practical skills in various aspects of computer science and software development. I am a mathematics graduate. Passionate about coding and always seeking ways to improve coding skills and efficiency. I am looking forward for my first work experience

Education

COLLEGE OF ENGINEERING TRIVANDRUM   2022 - Present
Master of Computer Application
APJ ABDUL KALAM TECHNOLOGICAL UNIVERSITY

VIMALA COLLEGE THRISSUR   2019 - 2022
Bsc.Mathematics
CAICUT UNIVERSITY
CGPA - 9.15

ST.ANTOY'S HIGHR SECONDARY SCHOOL   2017 - 2019
Higher Secondary Education
SCORE - 89.58%

Project

QUADRATIC FORMS

Quadratic forms are fundamental mathematical objects that find applications in various fields, including algebra, geometry, physics, engineering, and computer science.This project aims to explore the fascinating world of quadratic forms, understand their properties, and demonstrate their applications in various real-world scenarios.
